

# **CHALMERS**

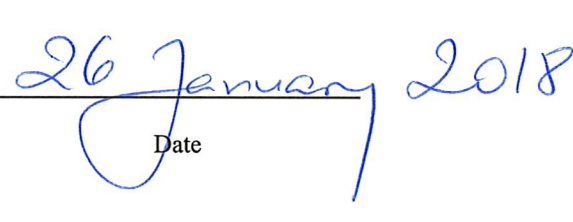

*To whom it may concern,*

**Niklas Forsström** is a student at the Program of Engineering Physics at Chalmers University of Technology. He has studied 3 years out of the 5 year program leading to a Master of Science degree in Engineering Physics.

As a part of our vision and strategy, the students at the Chalmers are encouraged to seek out and participate in activities that broaden their perspectives, e.g. experiences from abroad. Therefore, exchange programs and summer training programs along with the possibility of getting hands-on training and gaining international experience, are activities that I fully endorse.

Niklas Forsström has proven to be very enterprising and I am sure he will serve as a good representative of Chalmers University of Technology and Sweden.

Sincerely,
